

## **My Experience in Poland**

by Giulia Ardeleani (2F)

I take part in the Comenius project, and so, from 20<sup>th</sup> March to 25<sup>th</sup> March I travelled to Poland. The town where I spent my time, Gdansk, is a very nice place, clean, with strange houses, tall and narrow. Besides, the meals are different: we had a big breakfast, we ate something during the morning, then, when we went back home, we had dinner at about 5 p.m. After the activities of the evening, where we, for example, had eaten an ice-cream, we had supper.

My host family picked me up at the airport and we went together to their house. It was built on five floors. The rooms were nice, but quite small.

My host family consisted of four people: Ania, the girl who hosted me, her little brother called Cuba and her parents. Ania is my same age, but she speaks English better than me. Her mother speaks English very well because she has travelled a lot, and so, she sometimes teaches English to Ania.

I had fun with her because we have the same hobbies and we like the same things. She was very kind to me. As a matter of fact, she left me her bed and all her bedroom, and she slept with her brother.

In the morning she woke me up and, after breakfast, when I often talked to her mother, we went to the little middle school in Gdansk. Their timetable is very different from ours. They spend five years in middle school and three years in high school.

They finished school at 4 p.m. And so, we ate at school. During the morning we had meetings with all the students who take part in the Comenius project and we did a lot of activities to get to know each other. After school we often went to see something of the place, or we simply had a tour of the town and talked together. One day we went to Sopot, the town where we saw the sea and we took a lot of photos.

We came back home one day later, because our plane was delayed and we missed our connection to Milan, so we slept in a hotel near Frankfurt Airport for that night. Finally, we came back the following morning.

It was an amazing experience that I'll remember all my life.
